Jl. Andi Djemma, Lr 5c, Banta-Bantaeng, Rappocini, Makassar, Sulawesi Selatan

Computer Engineering graduate from Telkom University with hands-on experience in mobile application and backend development through internships and academic projects. Skilled in developing applications using Flutter, PHP, CodeIgniter 4, MySQL, Firebase, and REST APIs. Curious about technology and eager to keep learning, improve my skills, and explore new technologies.

EDUCATIONS

Universitas Telkom Bandung - **TELKOM UNIVERSITY, Kab. Bandung, Jawa Barat, Indonesia** — Sep 2022 - Jul 2026

Bachelor of Computer Engineering

SMAN 2 Makassar - **Jl. Baji Gau No.17, Baji Mappakasunggu, Kec. Mamajang, Kota Makassar, Sulawesi Selatan 90121** — Jul 2019 - May 2022

High School Diploma

WORK EXPERIENCES

Center for e-Learning and Open Education (CELOE) – Telkom University - **Bandung, Indonesia** — Jun 2025 - Aug 2025

Backend Developer Intern

- Developed the backend of a web-based Document Management System (DMS) using PHP and CodeIgniter 4.
- Developed and maintained RESTful APIs for document management and CRUD operations.
- Managed MySQL databases using Query Builder and integrated backend data with the frontend through JSON-based APIs.
- Tested APIs using Postman and improved application performance through pagination, lazy loading, input validation, and query optimization.
- Created user manuals and supported User Acceptance Testing (UAT).

PT PLN (Persero) UP3 Parepare - **Parepare, Indonesia** — Mar 2026 - Jun 2026

Mobile Application Developer Intern

- Developed an Android-based tree management application using Flutter.
- Independently developed the mobile application and integrated Firebase Firestore, Google Maps API, ImageKit.io, Railway Backend, and Telegram Bot API.
- Developed features for tree mapping, maintenance management, growth prediction, reporting, and real-time notifications.
- Conducted Black Box Testing, White Box Testing, and User Acceptance Testing (UAT).
- Developed an Excel report generation feature to support tree asset management.

ORGANISATIONAL EXPERIENCES

Workshop "Eyes of Tomorrow: Navigating the Landscape of AI Object Detection and Robotics" - **Telkom University, Bandung, Indonesia** — Jun 2024

Public Relations Committee

i-SMILE Laboratory, Telkom University

- Contributed as a Public Relations Committee member in the "Eyes of Tomorrow" workshop.

Volunteer – SESAMA 2.0 - **Bantu Mereka Indonesia - Bandung, Indonesia** — May 2025

Personal Assistant (PA)

- Assisted participants during SESAMA 2.0 and supported them throughout the event activities.

Webinar Research: "Keseimbangan Hukum antara Kebebasan Konsumen Memberikan Ulasan dan Perlindungan Reputasi Penjual di Era Digital" - **Webinar Research, Bandung, Indonesia** — Nov 2025

Committee Member

- Contributed as a committee member in organizing the Webinar Research on consumer reviews and seller reputation in the digital era.

SKILLS, ACHIEVEMENTS & OTHER EXPERIENCE

- **Soft Skills** (2025): Information and Communication Technology – Soft Skills Development III – Leadership
- **Achievements** (2026): English Proficiency Test (EPrT) – Achieved a score of 403 in the English Proficiency Test.
- **Achievements** (2025): KAI Ideation Challenge 2025 - Participated in the challenge to develop innovative ideas and solutions.

- **Hard Skills** (2024) : Backend Development Fundamental – Completed a short course on backend development in software engineering.
- **Hard Skills** (2024): Introduction to Information Security Course -
  Completed an introductory course in information security fundamentals.
- **Hard Skills** (2024): Data Cleaning & Visualization using Excel and Looker Studio - Learned data cleaning and visualization using Excel and Looker Studio.
- **Projects** (2023): Python Calculator-Developed a calculator application using Python.
- **Projects** (2024): KariMart Website - Developed a mini-market website named “KariMart”.
- **Projects** (2024): Ball Balance with Arduino PID Controller System - Developed a ball balance system using Arduino and PID control with a team.
- **Projects** (2025): LDR Light Intensity Monitoring System - Developed a light intensity monitoring system using LDR, 7-segment display, LCD, and LED indicators.
