Jl. Andi Djemma, Lr 5c, Banta-Bantaeng, Rappocini, Makassar, Sulawesi Selatan

Computer Engineering graduate from Telkom University with hands-on experience in mobile application and backend development through internships and academic projects. Skilled in developing applications using Flutter, PHP, CodeIgniter 4, MySQL, Firebase, and REST APIs. Curious about technology and eager to keep learning, improve my skills, and explore new technologies.

EDUCATIONS

Telkom University - **Bandung, Jawa Barat, Indonesia** Sep 2022 - Jul 2026

Bachelor of Computer Engineering, 3.18/4.00

SMAN 2 Makassar - **Makassar, Sulawesi Selatan** Jul 2019 - May 2022

High School Diploma

WORK EXPERIENCES

PT PLN (Persero) UP3 Parepare - **Parepare, Indonesia** Mar 2026 - Jun 2026

Mobile Application Developer Intern

- Built PLN JagaGRID, an Android tree-mapping and vegetation-monitoring app, using Flutter (Dart) and Provider; handled all coding independently in a 3-person team.
- Integrated 5 services: Firebase Firestore, Google Maps API, ImageKit.io, a Node.js backend on Railway, and Telegram Bot API.
- Implemented 5 core features: GPS tree mapping, growth prediction, risk analysis, H-3 reminder notifications, and Excel report export.
- Tested with black-box and white-box scenarios (100% passed) and a UAT with 14 respondents (85.75% satisfaction).

Center for e-Learning and Open Education (CELOE) - **Telkom University, Bandung, Indonesia** Jun 2025 - Aug 2025

Backend Developer Intern

- Built the backend of a web-based DMS using PHP, CodeIgniter 4, and MySQL in a 4-person team, covering 4 modules: User Management, Master Data, Role, and Menu.
- Developed RESTful APIs with JWT authentication and role-based access control, connected to the frontend via JSON.
- Improved performance with pagination, lazy loading, and indexing; added export to 3 formats (PDF, CSV, Excel).
- Tested APIs with Postman, ran UAT, and wrote user manuals and UAT documentation.

ORGANISATIONAL EXPERIENCES

Workshop "Eyes of Tomorrow": AI Object Detection and Robotics - **Telkom University, Bandung, Indonesia** Jun 2024

Public Relations Committee

i-SMILE Laboratory, Telkom University

- Contributed as a Public Relations Committee member in the “Eyes of Tomorrow” workshop.

Volunteer – SESAMA 2.0 - **Bantu Mereka Indonesia - Bandung, Indonesia** May 2025

Personal Assistant (PA)

- Assisted participants during SESAMA 2.0 and supported them throughout the event activities.

Webinar Research: Consumer Reviews & Seller Reputation in the Digital Era - **Webinar Research, Bandung, Indonesia** Nov 2025

Committee Member

- Contributed as a committee member in organizing the Webinar Research on consumer reviews and seller reputation in the digital era.

SKILLS, ACHIEVEMENTS & OTHER EXPERIENCE

- **Programming Languages**: Dart, PHP, JavaScript, Python, Java, C, C++
- **Frameworks & Backend**: Flutter, CodeIgniter 4, Node.js, Firebase Firestore, MySQL, RESTful API, JWT, RBAC
- **Tools**: Git & GitHub, Postman, Figma, Google Maps API, Telegram Bot API, Railway, ImageKit, Excel
- **Hard Skills** (2024): Data Cleaning & Visualization using Excel and Looker Studio - Learned data cleaning and visualization using Excel and Looker Studio.
- **Projects** (2024): Ball Balance with Arduino PID Controller System - Developed a ball balance system using Arduino and PID control with a team.

- **Achievements** (2026): English Proficiency Test (EPrT) – Achieved a score of 403 in the English Proficiency Test.
- **Achievements** (2025): KAI Ideation Challenge 2025 - Participated in the challenge to develop innovative ideas and solutions.
- **Hard Skills** (2024): Backend Development Fundamental – Completed a short course on backend development in software engineering.
